2021 VIRTUAL ANNUAL MEETING
ANNOUNCEMENT AND
CALL FOR PAPERS

President's Message

We were hoping that by late October 2021, we could return to having an in-person meeting at Rutgers and did a lot of planning to achieve that goal. Sadly, because we could not ensure all attendees would have to present proof of vaccination as well as follow other protocols, we have had to pivot to a virtual online format.

Given the success of last year's 2020 meeting run by Jase Bernhardt with the support and assistance of AAG, we are hopeful we can achieve another great virtual meeting. Our online meeting last year enabled participants from as far away as Australia to join us.

But we need your support! We have extended the abstract and registration deadline as well as the Student Competition deadlines to October 20, so there is still time to submit an abstract and come to our virtual event! As always, submissions are welcome on all aspects of our diverse discipline, but we are especially interested in topics such as race, racism, and the academy; the ongoing impacts of COVID-19, and the uneven effects of climate change.

Please check our website for any **last minute changes**, as well as for other information about the Student Competitions and Geography Bowl.

If you have any questions or concerns about this year's meeting, please do not hesitate to reach out!

Nate Gabriel, Rutgers University

Additional division information may be found on our website: msaag.aag.org

Keynote Speaker

Dr. Emily Yeh is a professor in the Department of Geography at the University of Colorado Boulder, whose research focuses on questions of power, political economy, and cultural politics in the nature-society relationship.
